Objective

To join an organization where I can apply my knowledge of Frontend web development to create engaging websites and applications.

Projects

Portfolio Website

- ❖ Build a personal portfolio website. And give it a modern look as well as added responsiveness for multiple devices.
- ❖ HTML, CSS and JavaScript

E-commerce Website Clone

- ❖ Build an e-commerce website clone. This is a clone of the swiggy food delivery website.
- ❖ HTML and CSS

Music player

- ❖ Created a music player that allows users to play music. I also implemented features like volume control, music playing time.
- ❖ HTML, CSS and JavaScript

Certificate

I earned a *Responsive Web Design Certificate* at freeCodeCamp.
